SMALLEST RACING AUTOMOBILE IN WORLD

The smallest racing automobile in the world, designed in England for forth-ning racing events on the European tracks. It is known as the "Jappic" and the chief features are its lightness and portubility.

DEVELOPMENT OF MOTOR BUS RUNS

Vehicles Are Now Comfortable, Easy Riding and Quite Convenient.

It is estimated that there are 40,000

notor busses in the United States, induding those operated by rural schools." This extract from a recent report of the National Automobile Chamber of Commerce tells briefly the history of one of the most remarkable. industrial developments of recent years. The original motor bus was a cheaply constructed affair with hard cushions, cold in winter, and dusty in summer Now we have comfortable and easy riding cars, offering convenient and quick transportation on the

In the early days of the bus it was booked-upon with fear by other utilities. Street car, interurban, and rail road lines thought it an unfair com-petitor. But now 60 electric lines ope-

Where Motor Busses Are Popular.

rate bus runs, of their own, and they are being used in increasing numbers Traction Lines Own Buss

Ohlo holds the Middle West record with an average monthly passenger busi for the nation is held by a Maryland line which carries 201,000 every month. The bus has been recognized as an es sential and integral part of our trans-portation system, and with the spread of hard-surfaced high ways, it is growing annually in impor-

There is no doubt that motor bus

ive proof of this assertion Of greater importance, however, is four-cent tax. well-made, hard-surfaced highways, than in any other sections. After a city has become well established in a business way, local stores soon reach a point of saturation with regard to expansion in selling. The only method of overcoming this threatened stagnstion is to reach new trade channels.

One striking factor must obtain, how.
ever, if this ideal situation is to be
developed to its true value. There must be roads that will stand up under the heavy traffic and be in shape every day in the year. Bus lines can-not operate on schedule and cannot perate at a fair profit unless the pub lic road, which is their road-bed. is of enduring construction. The automobile was in a large sense the ploneer which led the way and established the necessity for paved roads. In bus transportation, however, the road still is the first consideration.

The roads must withstand the gruelling pace of heavy traffic almost without let up, and they must be available tual work is not being done.

for rapid, safe and comfortable motor low one of these local motoris sideration in successful operation of motor bus lines from the standpoint of civic prosperity.

AUTOMOBILE FACTS

There is now a motor car for every 6.4 persons in the United States, the decimal point fellow being the fourth passenger in the coupe.

Give proper attention to lubrication, oiling often enough (according to the car maker's instructions) and using the right grade of oil or grease.

Did You Know—.
That the top of the cur, whether open or closed, should not be brushed off, but should be publied. Brushing digs out particles of dirt that are of value in Alling in porous parts of the without injuring the top.

That you should never ride in the closed car while any of the doors are locked? You never can tell when it may be neces sary to make a quick exit, and to have to stop to adjust the unlocking device may be a misfor-

tune.
That air hubbles seen in the radiator solution indicate some sort of cylinder hend gasket icak? The bubbles are the result of compression lenking our around the head and getting into the cooling system. This nir, being under pressure, naturally finds its way to the surface of

Most Serious Accidents At Railroad Crossings

Probably more serious accidents oc cur among motorists at railroad crossaccidents have become so frequent and serious that they furnish a most potential argument in favor of the abolishment of grade crossings. In the light of all this, it behiptogs the motor list to know just what is expected of him by the law at points of this kind.

From the cases reviewed, it would seem that the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the duty to stop, took and liston for the courts have placed the courts have placed the duty to stop, took and liston for the courts have placed to the courts have placed highways, hardly a day passing that from contributing negligence.

A large share of the remainder was turned over to county and local road funds. In a few states a portion is turned over to general funds, school funds, and for miscellaneous purposes.

Although 35 states impose a gaso-line tax, it affects only about half-of the motor vehicles, since several of the states which do not impose a tax have large registrations. The amount paid annually by the average motor ist where the tax is collected in \$10.80 -per vehicle.

Timely Touring Tip

Don't be fooled into thinking that detour sign doesn't mean anything ecause one or two other drivers head of you seem to ignore it. Many detours are posted with the idea, of taking care of through traffic, thus allowing local motorists to use that portion of the main road where the for rapid, safe and comfortable motor low one of these local motorists, who travel every day. Permanence and will in all probability turn into his own private driveway before reaching ciding factors in this important con the torn-up portion of the road, is to run the risk of having to go all the way back to where you started and take the detour.

Never race the engine, especially in starting in cold weather before the oil varms-up-enough to-eleculate

But even with an increased tax on gasoline it is doubtful whether there will be much decrease in the inju-dicious use of the accelerator.

The practice of just heading a calinto a space, regardless of its size and leaving it there, forcing traffic to turn stopped.

MY FAVORITE NOW DOES

STORIES

By IRVIN S. COBB

(Copyright.) Where the Partnership Dis-

solved One of the oldest stories in the know world-and in my humble judgment one of the best ones as well-deals

One of the oldest stories in the known world—and in my humble judgment one of the best ones as well—deals with three actors—an aged negro, an itinerant conjurer and a twelve-pound snapping turtle.

The most popular version runs in this wise: It is a hot duy in a Mississippi countryside. The conjurer, who is making his way across country afort, is sitting alongside the dusty road, resting. There passes him an ancient negro returning from a fishing expedition. The undertaking has yielded nuffish but the durkey is not going home empty-handed. He has captured shuge snapping turtle. He is holding it of the year I took three. I had been treated by a doctor but he gave me an iron tonic and that did not help me. It is set in the flat undershell of the captive rests against his beek. He has delectable visions dancing in his mind of turtle soup, turtle steaks and turtle stew. He has delectable good morning and trudges on, He has gone perhaps twenty feet further when an impish inspiration leaps full-grown good it does me. They can notice it because I have gained in weight. This year before I started to clean house in the head of the recumbent stranger a politic for but he gave me an inghibor how I felt and she said that the vegetable Compound did That seed that the tonic did not have in it what the Vegetable Compound and am taking it right along. I sell all my friends about it and he made the province of the captive rests and a mount in the fall was surely the right thing for me. I took four bottles then and in the fall was surely the right thing for me. I took four bottles then and in the fall was surely the right that the fall was surely the right that the vegetable Compound did not help me. It was in a de

a fair ventriloquist.

He throws his voice into the turtle's mouth and speaking in a muddy, gut-tural tone such as would be suitable to a turtle if a turtle ever induiged in conversation, he says sharply:

The old man freezes in his tracks. He rolls his cyes rearward. There is trouble, the look of a vast, growing startled "It's of bewilderment on his face.
"W-li-who—who dat speakin' to me?

seemingly says, "here on your back. I est in the proceedings, "What a pity asked you where you were taking me." we didn't know yesterday, when the -"Huh, boss," cries the old man, "1 ain't takin' you nowhars_I'se leavin'

ALL WORN OUT?

Are you lame and stiff; tired, nervous and depressed; miserable with back-cache? Have you sunected your kidneys? Good health depends upon good elimination. But sluggish kidneys allow impurities to accumulate and upset the whole system: Backache is apt to follow; stabbing pains, depressing head-aches, dizziness, and other annoying kidney irregularities. Why experiment? If your kidneys are sluggish, why not use Doan's Pflis. Doan's is a harmless stimulant diuretic. Used the world over. Ask your neighbor!

Indian's Use of Tobacco

The first mention of snoking to-bacco in Canada is to be found in Jacques Cartier's account of his sec-ond voyage, made in 1535. The earliest white visitors to North America found the habit of smoking tobacco established among most-of-the-Indian tribes. As a rule, the tobacco was smoked in pipes. A tribe of Indians occupying the district about the foot of Lake Erie were known as the To-bacco Indians. They grey tobacco and exchanged it with their neighbors for fish, corn and furs.

GATE-CRASHING IS ENDED BY GLANTS

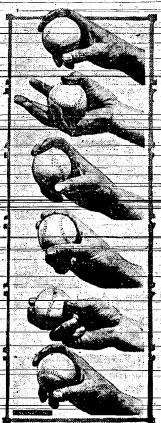

Police Officials Must Pay Their Way Into Polo Grounds in Future.

No longer will a flash of gold cause the gates of the Poto grounds to swing open even if the yellow adornuent is on the breast of a police officlal. In the past, so many have crushed the gate to cheer the Glasts that hereafter police captains, lieu-tenants, sergeants and detectives, even though equipped with gold budges, will have to pay for their entertainment. just like the other funs. The announcement that a gold-badge

would no longer act as a ticket fol-lowed a conference between J. J. Tierney, secretary of the Glants, in-spector VanKeuren and Capt. Edward Mulrooney of the Third Inspection district. At this meeting it was decided that only bona fide working po-licemen, assigned to the bull yard. with a few exceptions, would be admitted. A list of names and shield numbers will be posted so that there won't be any mistakes. This has been lone in Brooklyn for some time. It is expected now that the only

policemen to get in free will be Richard 18. Earlight, commissioner, the deputy police commissioners, inspectors some captains and lieutenants, a fev sergeants, some detectives and the pickpocket squad together with the patrolmen on duty. This may sound like quite a list, but still it will be an albreviation as in the past so many officers off duty spent their free time in the yard that cash customers had o stand up. And that is the real eason for the change.

ONE-BASE HITS

(By JACK SIMPSON.)

Appeal for Decision. How often have you noticed a player argue with an umpire that a baserun-ner falled to touch a base in running out a lift? Very seldom the infielder will appeal to the unpire and wonder why he failed to render the decision. An umpire has no mithority to call a runner out in the above case because the fielder failed to play the game. The umpire is in the game to eath the plays as they are made when a baserunner fails to touch base, the fielder must touch the bas

JUNE 8-9.

The Board of Review of Grayling

The program was as follow:

Wednesday afternoon R. D. Bailey gave a very interesting talk on "Relation of the family book table to rechanging the valuations either higher ligious training in the home." Miss or lower and assume this responsibility over the head of the supervisor. He wants every taxpaver to attend He wants every taxpayer to attend that meeting, and says that those who

and may confidently be expected to confer a permanent immunity from a return of the disease," he declared. Sir James Bland Sutton, head of the cancer research campaign, does not ac-cept the idea that cancer can be eradi-

gone over to discover how patients have fared since.

Court Tells Mother to

HOPE IS GIVEN

Can Be Stopped in Early

Stages, Says Surgeon.

than that cancer, whatever its occult nature may be, is a local disease in the first instance; that it remains a

local disease for periods which are

cometimes short and sometimes vers

long, and that if treated in its early

stages by operative methods it is completely and permanently eradicated."

Such is the opinion of Sir Berke

iey Moynihan, perhaps Britain's most

famous surgeon.

British scientists and medical men

have been devoting much time to the

study of cancer, still regarded as the

most baffling disease known to modern

surgery or medicine, and Moynthan, who expressed these views in a lec-ture to the Association of Science Mas-

ters at Leeds university, confirmed

The trouble in dealing with cancer

said the famous surgeon, was to ob-

tain access to the disease while it was still in the local stage. Public fear of

the disease is a great handicap in dealing with it and it should be made a

matter of common knowledge that can-cer is not, as most people suppose, a

disease from whose immediate and recurrent ravages there is no escape.

"We must broadcast the truth, that,

with few exceptions, an early operation

for any cancerous disease is attended by the slightest risk, if indeed by any,

cated by surgical operation in the early

Red Crown

The High-Grade Gasoline

Is Masterful

The main function of a gasoline is to provide pull-and Red Crown provides it to a superlative degree.

Red Crown negotiates the steepest hills with an ease which exhilarates you by its sure mastery of the situation.

Red Crown is swift to take you out of an emergency-rapidly responsive at a change of traffic lightsmarvelously flexible in carrying you through a traffic jam.

Red Crown power pull is as strong as modern chemical science can devise. It flows unceasingly never lapses—never varies—because it is inherent in the nature of the Red Crown unbroken chain of boiling point fractions.

To increase driving satisfaction to avoid disappointments—and to add mileage per gallon-fill up with Red Crown and use Red Crown all the time.

Wide Silks Practical

The new plain and printed silks which come in a width of 54 inches the material is all that is necessary for a frock, while little more is required for a coat.

White Jabots Used

t is at the The jabot of white georgette or Shades of crepe de chine is frequently seen on the new black satin dress.

LITTLE MR. DOWNY

"It seems only vesterday that they were only five white eggs," said Mother Downy Woodpecker as she looked at her five little birdlings. She could hardly believe that they were

"Well," said little Mr. Downy, "In a way it is no wonder that they have grown, for they've had such huge appetites and have enten all we've

"We've been kept busy bringing them good things to eat too.

"But they have grown very quickly said Mother Downy, "Truly they will not be bubles any more.

"They can't be bubles always," said Mr. Downy, in a wise and manly

"True!" sighed Mother Downy, "but it seems only yesterday that they

"My dear," said Mr. Downy, "I am invited to a banquet today of cate pillar eggs in the orchard. I was told me tell the other Downy Woodpeck ers about the feast,

"You know we must save the trees for the fruit growers and not let the caterpillars and wood beetes have a

to have a pudding of weed seeds and a few pokeberries. I am given to un-

derstand. "Or course it will be a most informal banquet. Self-service, you know. We'll all pound the trees ourselves so we can tell just where the meat is to be had.

"We should do that for the people who own this orchard. Think how they tooked after us with suct when it was cold and food was scarce. They unde life jolly and happy for us and for the Tufted Titmouse family and or the chickadees

"Oh;" said Mother Downy, "speaking of the chickadees reminds me that
